

## BARAN SIEGEMASTERS IMPERIAL GUARD ARMY LIST<sup>1</sup>

*"We've been 'claiming' this damned planet for the Imperium all of my life, and all of my father and grandfathers lives before that. I just wish someone would get round to telling those damned Orks to get off our damned land!"*

### Forces

The Baran Siegemasters Imperial Guard Army List uses the datasheets from the Baran Siegemaster Forces section and the Imperial Navy Forces section.

### Using The Army List

The following army list allows you to field an Imperial Guard army that is based on a Siege regiment of the type typified by the Baran Siegemasters. It can also be used as a "stand in" army list for other Imperial Guard Siege regiments, other kinds of static defence regiment, as well as being an excellent army list to use to represent the planetary defence forces fielded by Imperial Governors all across the Imperium.

Baran Siegemaster formations come in two types: *companies* and *support formations*. Each company you include in the army allows you to field any two support formations, plus one set of Fortified Positions. Although you can only take a support formation if you first take a company, they are treated as separate independent formations during a battle and do not have to move around together.

In addition, companies may be given up to three company upgrades. Each type of upgrade can only be taken once by a company. Upgrades are added to the company and are not a separate formation. Support formations may not be given company upgrades. Each upgrade that is taken adds to the cost of the company, as shown on the upgrade chart. Note that you may take any type of upgrade for any type of company.

Baran Siegemasters Imperial Guard armies may be supported by Imperial Navy aircraft. A maximum of up to a fourth of the points available to the army may be spent on these formations.

### Special Rules

The *Commissars* rule applies to Baran Siegemasters Imperial Guard armies (see *Commissars*).

### SPECIAL RULE

#### *Regimental HQs*

When playing Epic tournament games, a Siegemaster army must include a Regimental HQ. The enemy count as having achieved the "Break Their Spirit" goal by destroying this formation or by destroying the most expensive formation in the army (see Victory Conditions).

### SPECIAL RULE

#### *Fortified Positions<sup>2</sup>*

Fortified positions must be set up after objectives have been placed but before spacecraft and garrisons are set up. The only exception to this are fortified positions that are listed as part of a formation's "units". While they are not actually units, they are set up with the formation they are part of.

Fortified positions may be set up anywhere a vehicle may deploy on the player's half of the table. They may not be transported. Each group of fortified positions (whether part of a formation or not) must be set up so every piece is within 5cm of another piece from the same group, and so all pieces from the same group form a "chain" without any gaps of more than 5cm. Additionally, if a group of fortified positions is part of a formation then at least one piece must be within 5cm of a unit from the formation when they are set up.

Once set up, fortified positions may be used by any unit (including enemy units).

#### 2. Fortified Positions

Q: Do all Fortified Positions purchased need to be set up?

A: No.

Q: Are Fortified Positions counted during tiebreak?

A: No.

Q: Are the Gun Emplacements that come with certain formations set up at the same time as Fortified Positions?

A: No, these are setup with the formation they are part of.

Q: Are the Gun Emplacements that come with certain formations in the formation?

A: No, they are not units. They just need to be set up in coherency with the rest of the formation.

1. Baran Siegemasters Imperial Guard Army List

Q: If a Sapper Platoon is split up and added to one or more companies is the Break Their Spirit goal or tiebreak affected?

A: Yes, each unit of Sappers adds +30 points to the company it is added to.

**SPECIAL RULE**

***Commissars***

An Imperial Guard army may include one Commissar character per 500 points, or part thereof, in the army. The Commissars do not cost any points.

Commissar units may be added to the army at the start of the battle before either side sets up. If the army includes a Supreme Commander then the first Commissar must be attached to the Supreme Commander's formation. Any further Commissars may be attached to any other formations.

You may not include more than one Commissar per formation. You may not add a Commissar to an Imperial Ally formation. If you have more Commissars than formations any excess is lost.
